

Sustainable Development Goals Working Group

# INTERLINKED

Finding links between Sustainable Development Goals

## CLIMATE ACTION

## RESPONSIBLE CONSUMPTION & PRODUCTION

13 CLIMATE ACTION

Take urgent action to combat climate change and its impacts

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

Ensure sustainable consumption and production patterns

This Fact Sheet is part of the series INTERLINKED designed by the Sustainable Development Goals working group from Generation Climate Europe. The objective of this campaign is to raise awareness of the interlinkages existing between climate change and other SDGs.

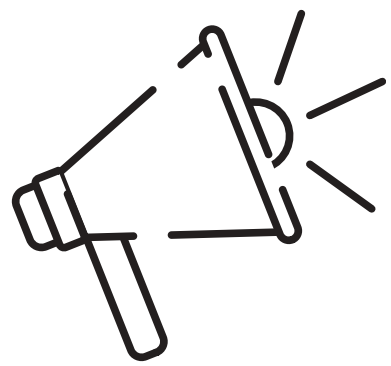

Make sure not to be on the naughty list

### Play your part

Your Action matters...

Whilst 93% of the world's largest 250 companies may now report on sustainability (UN, 2018), make sure to do your research, don't let **greenwashing** fool you!

But don't accept that the responsibility is solely yours

100 companies are responsible for 71% of global emissions (The Guardian, 2017)

Governments are contributing to the problem with relaxed regulations & subsidies going to fossil fuel companies

Remember your power as both a citizen and a consumer!
